Did you know, unless your beneficiaries know the company name you have life insurance with there is no way for them to find it. Use our site to register your Life Insurance Company Name so that it can be found by your beneficiaries.

Billions in insurance policies go unclaimed due to lost or unknown beneficiaries. Unofficially it is said that over 25% of Life Insurance policies go unclaimed. This could possibly be due to beneficiaries not knowing they are beneficiaries so they do not even look or not knowing where to look.

Why?

Financial institutions are not required to find and notify heirs about policies their loved ones have left behind, and they are not automatically notified about a member or customer's passing, unless someone tells them.

Insurance Companies need you to register to guarantee payouts.

Take this test: Who are your life insurance policy beneficiaries?

- Do they know they are your named beneficiaries?
- Will they remember in 12 or 30 years, at the time of your passing?
- Will they know which insurance company or financial institution to contact?

The problem is clear. The answer is simple: FindYourPolicy.com
